

JORMAN ORRALA LAINEZ

FULLSTACK DEVELOPER

 <https://jored93.github.io/portfolio-website/>

 eduardorralla@live.com

SKILLS

AWS	AZURE
Typescript	Node JS
Python	Flask
.net 7 - C#	SpringBoot - Java
React	Docker
APEX	Terraform
Djando - DRF	SQL & NOSQL
Jenkins	Agile Methodologies

EDUCATION

Computer systems engineer

Guayaquil university

2013 - 2022

Registration number: 1006-2023-2615989

EXPERTISE

- **Voip:** Installation and configuration of telephone exchanges.
- **Web:** Deployment of web pages with Nginx
- **Docker:** Creation and maintenance of containers of applications and database.
- **CI/CD:** Jenkins as a CI server being the center of continuous delivery for any project, Gitlab CI/CD.
- **Monitoring:** Prometheus, Grafana.
- **Dhcp:** Nating of public networks.
- Network configuration and administration (Cisco - BDCOM - MikroTik)
- FTTH network architecture

PROFILE

Experience in Python, Typescript, Auth and RESTful backend development.
Experience with CI/CD, Docker, microservices architectures and devops culture.
Knowledge of frontend development in HTML, CSS and Javascript frameworks.

WORK EXPERIENCE

Engineer

NTT DATA

Sept 2022

- **TypeScript Development on AWS:** Write code in TypeScript for applications and services on AWS.
- **AWS Cognito Integration:** Configure and manage AWS Cognito, a user authentication and authorization service.
- **Application Development with JavaScript and C#:** Develop applications in C# and Javascript using Azure SDK and Azure services.
- **Azure Functions integration with Azure Services:** Connect Azure Functions with other Azure services, such as Azure Storage, Azure SQL Database, and more, to create complete workflows.
- **Collaborative work:** Active participation in agile methodology ceremonies.

Web Developer

Tecnoprova

Dec 2021 - May 2022

- **Frontend Development:** Creating the user interface of a website using HTML, CSS and JavaScript.
- **Database Management:** Design and create queries using ORACLE DB.
- **Full-Stack Development:** Combine both frontend and backend development to create complete web applications in Oracle APEX.

System Administrator

Marr 2018 - Nov 2021

CABLE FUTURO EC

- **User Interface Development (UI):** Design and creation of the visual structure of a website or application, optimizing the user interface for mobile devices and tablets (responsive design).
- **User Experience (UX) Development:** Improve user experience through intuitive navigation and usability.
- **JavaScript Programming:** Developing client-side logic using JavaScript, creating dynamic interactions on the website or application.
- **API Integration:** Connecting the front-end to services and back-end APIs, making HTTP requests, and processing received data.
- **Network design and optimization:** I collaborated in the design and optimization of network topology to improve efficiency and redundancy, ensuring reliable connectivity for our clients.
